

# Csaba Ovari

Software developer & Freelancer

## ABOUT ME

I'm Csaba Ovari, a Frontend Developer with 5+ years' experience building UI/UX-focused large web applications and SEO-friendly sites. I specialize in performance optimization—streamlining data fetching and improving browser rendering.

## EXPERIENCE

### DX Digital Transformation Solutions Ltd. + Freelancer

Software developer - 2022 - Present

- Development of case management systems for the Hungarian government. Using React, Vue, Javascript(ES6), TypeScript, Bootstrap4/5, Material UI, SCSS, Git, Docker, PostgreSQL, Figma

### CSIHA Electronics & Software Development Ltd.

Full-stack web developer - 2021 - 2022

- Developed a back-office POS system and a precision farming platform, applying web design and development principles to deliver robust and scalable solutions. Translated UI mock-ups into functional interfaces using HTML5, CSS3, JavaScript, Vue.js, and Bootstrap, and implemented backend services with PHP and Laravel

### New Line Technologies Plc.

Software developer - 2021

- Implemented web design and development principles to build .NET applications, creating custom Kendo UI components for clients, and integrated open-source CMS (DokuWiki) on Linux environments.

### WebEye Telematics Ltd.

Junior Software developer - 2020

- Developed large-scale web and Android applications using C# and Java, including a fleet tracking system (WeMonitor) and a mobile app for field technicians.

## EDUCATION

2018-2020

- University of Szeged, Software developer

2014-2018

- Székács József High School

## SKILLS

- Built complex SPAs with React and Vue 2/3 using TypeScript/Javascript, designing modular component architectures and shared utility libraries
- Comprehensive knowledge of build and development tools (Webpack, Vite) and CI/CD pipelines, Github Actions, Docker
- Ability to work independently and in a team setting
- Experience with GIT version control system
- Knowledge of an IDE e.g. WebStorm and VS Code
- Mentored teammates to deepen their technical craft through code reviews, pair programming, and tailored learning plans
- Collaborate with customer PMs and content editors to deliver planned features.
- Excellent interpersonal, written, and oral communication
- Intermediate level of English proficiency
